

[00:00:00.000 --> 00:00:02.000] 先看一下這個解釋

[00:00:02.000 --> 00:00:09.000] 就是你想接下來的操作中

[00:00:09.000 --> 00:00:11.000] 把你的操作想法講出來

[00:00:11.000 --> 00:00:13.000] 就是像是你找什麼

[00:00:13.000 --> 00:00:15.000] 要找什麼要怎麼找找到什麼

[00:00:15.000 --> 00:00:17.000] 那它分類的這個複雜程度如何

[00:00:17.000 --> 00:00:19.000] 界面設計的想法

[00:00:19.000 --> 00:00:21.000] 就你對這個東西的想法感受

[00:00:21.000 --> 00:00:23.000] 你都會把它說出來

[00:00:23.000 --> 00:00:25.000] 但就是不一定要都說出來

[00:00:25.000 --> 00:00:27.000] 看你自己

[00:00:27.000 --> 00:00:29.000] 如果你覺得這樣太麻煩沒關係

[00:00:29.000 --> 00:00:31.000] 你找不到別的方法

[00:00:31.000 --> 00:00:33.000] 接下來就是想像你

[00:00:33.000 --> 00:00:35.000] 要完成一個這樣的任務

[00:00:35.000 --> 00:00:37.000] 你在蘇聯亞洲要去韓國旅遊

[00:00:37.000 --> 00:00:39.000] OK

[00:00:39.000 --> 00:00:41.000] 那你現在要換回

[00:00:41.000 --> 00:00:43.000] 在 7 月 15

[00:00:43.000 --> 00:00:45.000] 假設在 7 月 15

[00:00:45.000 --> 00:00:47.000] 要出國

[00:00:47.000 --> 00:00:49.000] 好 現在開始吧

[00:00:49.000 --> 00:00:51.000] (電話聲音)

[00:00:51.000 --> 00:01:07.000] 我沒有那麼長好

[00:01:07.000 --> 00:01:11.000] 這個是你

[00:01:11.000 --> 00:01:13.000] 這個服務是你要用的嗎

[00:01:13.000 --> 00:01:15.000] 我不是要換回嗎

[00:01:15.000 --> 00:01:17.000] 應該是買外幣

[00:01:17.000 --> 00:01:19.000] 所以

[00:01:19.000 --> 00:01:23.000] 它那邊有說明  
[00:01:23.000 --> 00:01:25.000] 有說明說它是買賣外幣  
[00:01:25.000 --> 00:01:27.000] 就是這個東西  
[00:01:27.000 --> 00:01:29.000] 到底在做什麼事情  
[00:01:29.000 --> 00:01:31.000] 它是網路銀行的入口  
[00:01:31.000 --> 00:01:33.000] 那下面呢  
[00:01:33.000 --> 00:01:35.000] 線上結會  
[00:01:35.000 --> 00:01:43.000] 所以你在這邊就  
[00:01:43.000 --> 00:01:45.000] 有點卡住了  
[00:01:45.000 --> 00:01:47.000] 所以那你試試看其他的  
[00:01:47.000 --> 00:01:49.000] 有沒有其他東西可以  
[00:01:49.000 --> 00:01:51.000] OK  
[00:01:51.000 --> 00:02:07.000] 它沒有  
[00:02:07.000 --> 00:02:09.000] 它沒有韓  
[00:02:09.000 --> 00:02:11.000] 它沒有韓元韓環  
[00:02:13.000 --> 00:02:15.000] 這一個是什麼  
[00:02:15.000 --> 00:02:17.000] 線鈔  
[00:02:17.000 --> 00:02:19.000] 就是從外幣這邊  
[00:02:19.000 --> 00:02:21.000] 然後進  
[00:02:21.000 --> 00:02:23.000] 線鈔  
[00:02:23.000 --> 00:02:25.000] 線鈔的意思是什麼  
[00:02:25.000 --> 00:02:27.000] 我現在在這裡申請嗎  
[00:02:27.000 --> 00:02:29.000] 就是它是去提款機零  
[00:02:29.000 --> 00:02:31.000] 那提款機零的話  
[00:02:31.000 --> 00:02:33.000] 好像不需要在網路上操作  
[00:02:33.000 --> 00:02:37.000] 有啦  
[00:02:37.000 --> 00:02:39.000] 它有線上買外幣  
[00:02:39.000 --> 00:02:41.000] 它有線上然後也有分行  
[00:02:41.000 --> 00:02:43.000] 下面這邊

[00:02:43.000 --> 00:02:45.000] 這提款機

[00:02:45.000 --> 00:02:51.000] 那這邊的話

[00:02:51.000 --> 00:02:53.000] 你有在看

[00:02:53.000 --> 00:02:55.000] 這一塊的東西嗎還是沒有

[00:02:55.000 --> 00:02:57.000] 為什麼會挑過這一塊

[00:02:57.000 --> 00:03:01.000] 因為它這邊是

[00:03:01.000 --> 00:03:03.000] 線上結會

[00:03:03.000 --> 00:03:05.000] 所以線上結會的意思是什麼

[00:03:05.000 --> 00:03:07.000] 線上結會感覺就要用他們網銀

[00:03:07.000 --> 00:03:09.000] 可是我沒有在網銀的帳號

[00:03:09.000 --> 00:03:11.000] 我是這樣想的

[00:03:11.000 --> 00:03:17.000] 所以現在還是找不到地方

[00:03:17.000 --> 00:03:21.000] 不是吧

[00:03:21.000 --> 00:03:23.000] 那你從這個

[00:03:23.000 --> 00:03:25.000] 入口你按看線上結會好了

[00:03:25.000 --> 00:03:29.000] 這個

[00:03:29.000 --> 00:03:31.000] 沒有線上結會

[00:03:31.000 --> 00:03:33.000] 你剛剛

[00:03:33.000 --> 00:03:35.000] 沒有按鈕

[00:03:35.000 --> 00:03:37.000] 那你上面那個

[00:03:37.000 --> 00:03:39.000] 右邊

[00:03:39.000 --> 00:03:41.000] 線上結會

[00:03:41.000 --> 00:03:45.000] 然後這邊到了另外一個頁面

[00:03:45.000 --> 00:03:47.000] 那這時候

[00:03:47.000 --> 00:03:49.000] 你看一下

[00:03:49.000 --> 00:03:51.000] 你看到什麼東西

[00:03:51.000 --> 00:03:53.000] 對就是這個頁面

[00:03:53.000 --> 00:03:55.000] 它在預先說了什麼

[00:03:55.000 --> 00:03:57.000] 它上面就有一個可以立即申購

[00:03:57.000 --> 00:03:59.000] 外幣的這個  
[00:03:59.000 --> 00:04:01.000] 選項可以讓我選  
[00:04:01.000 --> 00:04:03.000] 然後下面也有講說  
[00:04:03.000 --> 00:04:05.000] 它的服務  
[00:04:05.000 --> 00:04:07.000] 的地點  
[00:04:07.000 --> 00:04:09.000] 跟時間  
[00:04:09.000 --> 00:04:11.000] 然後下面還有就是  
[00:04:11.000 --> 00:04:13.000] 還有介紹說它的外匯種類  
[00:04:13.000 --> 00:04:15.000] 可以用哪一些  
[00:04:15.000 --> 00:04:17.000] 下面就是廣告  
[00:04:17.000 --> 00:04:19.000] 那這個東西是你要的嗎  
[00:04:19.000 --> 00:04:21.000] 就你看了這些說明書  
[00:04:21.000 --> 00:04:23.000] 這些東西跟你想像中  
[00:04:23.000 --> 00:04:25.000] 的線上網會是一樣的  
[00:04:25.000 --> 00:04:27.000] 有點像  
[00:04:27.000 --> 00:04:29.000] 就是我可以去這裡面  
[00:04:29.000 --> 00:04:31.000] 我可以去那個外幣線上  
[00:04:31.000 --> 00:04:33.000] 裡面去看說還有  
[00:04:33.000 --> 00:04:35.000] 哪一些貨幣可以去兌換  
[00:04:35.000 --> 00:04:37.000] 我這樣點進來  
[00:04:37.000 --> 00:04:39.000] 然後就看到  
[00:04:39.000 --> 00:04:41.000] 在這邊  
[00:04:41.000 --> 00:04:43.000] 那這邊你會看什麼呢  
[00:04:43.000 --> 00:04:45.000] 我應該就會我進來這邊然後找到  
[00:04:45.000 --> 00:04:47.000] 因為我在想要兌換  
[00:04:47.000 --> 00:04:49.000] 所以我就可能會去  
[00:04:49.000 --> 00:04:51.000] 立即申購  
[00:04:51.000 --> 00:04:57.000] 為什麼我為什麼不會想看  
[00:04:57.000 --> 00:04:59.000] 看完那個

[00:04:59.000 --> 00:05:01.000] 因為  
[00:05:01.000 --> 00:05:03.000] 我如果不同意的話  
[00:05:03.000 --> 00:05:05.000] 就沒有辦法操作所以其實你覺得  
[00:05:05.000 --> 00:05:07.000] 看可不看都不服  
[00:05:07.000 --> 00:05:09.000] 就我使用這  
[00:05:09.000 --> 00:05:11.000] 會不會寫一些很重要的訊息  
[00:05:11.000 --> 00:05:13.000] 會嗎還是其實這種事情  
[00:05:13.000 --> 00:05:15.000] 可以發生  
[00:05:15.000 --> 00:05:17.000] 我看一下  
[00:05:17.000 --> 00:05:19.000] 它一定是很重要的訊息  
[00:05:19.000 --> 00:05:21.000] 要不然法律不會規定他要  
[00:05:21.000 --> 00:05:23.000] 在那邊揭露  
[00:05:23.000 --> 00:05:25.000] 揭露雙方的同意  
[00:05:25.000 --> 00:05:27.000] 沒問題  
[00:05:27.000 --> 00:05:29.000] 好進來進到  
[00:05:29.000 --> 00:05:31.000] 這個頁面  
[00:05:31.000 --> 00:05:33.000] 覺得怎麼樣  
[00:05:33.000 --> 00:05:35.000] 沒關係你先操作  
[00:05:35.000 --> 00:05:37.000] 覺得怎麼樣  
[00:05:37.000 --> 00:05:39.000] 我應該會選擇在  
[00:05:39.000 --> 00:05:41.000] 家附近的  
[00:05:41.000 --> 00:05:43.000] 的分行  
[00:05:43.000 --> 00:05:45.000] 找得到家附近的分行  
[00:05:45.000 --> 00:05:47.000] 找不到家附近的分行  
[00:05:47.000 --> 00:05:49.000] 那這時候你要怎麼辦  
[00:05:49.000 --> 00:05:53.000] 我可能會選一個  
[00:05:53.000 --> 00:05:55.000] 我大概知道會在哪裡  
[00:05:55.000 --> 00:05:57.000] 比如說衡陽可能就在衡陽路  
[00:05:57.000 --> 00:05:59.000] 上面

[00:05:59.000 --> 00:06:01.000] 或是金控總部他在中校先生那邊  
[00:06:01.000 --> 00:06:03.000] 就想像這個  
[00:06:03.000 --> 00:06:05.000] 真的是你在家操作的話  
[00:06:05.000 --> 00:06:07.000] 你會直接這樣子操作嗎  
[00:06:07.000 --> 00:06:09.000] 會  
[00:06:09.000 --> 00:06:11.000] 沒問題  
[00:06:11.000 --> 00:06:15.000] 然後你是 7 月 15 要出去  
[00:06:15.000 --> 00:06:17.000] 那你大概什麼時候會聯絡  
[00:06:17.000 --> 00:06:19.000] 假設他這裡沒有好了那我們改成  
[00:06:19.000 --> 00:06:21.000] 可能 3 月底要出去  
[00:06:25.000 --> 00:06:27.000] 基本上我應該會選  
[00:06:27.000 --> 00:06:29.000] 今天是  
[00:06:29.000 --> 00:06:31.000] 2 月 2 今天是 3 月 2  
[00:06:31.000 --> 00:06:33.000] 應該就是  
[00:06:33.000 --> 00:06:35.000] 從今天開始算  
[00:06:35.000 --> 00:06:37.000] 這個週末  
[00:06:37.000 --> 00:06:39.000] 這週結束以前  
[00:06:39.000 --> 00:06:41.000] 這三天我應該會調一天  
[00:06:41.000 --> 00:06:43.000] 我今天下午有空的話  
[00:06:43.000 --> 00:06:45.000] 我就會選擇當天下午  
[00:06:45.000 --> 00:06:47.000] 就直接去訂  
[00:06:47.000 --> 00:06:49.000] 所以就是操作  
[00:06:49.000 --> 00:06:51.000] 基本上就是你操作時間點  
[00:06:51.000 --> 00:06:53.000] 的那天你就會想  
[00:06:53.000 --> 00:06:55.000] 去訂  
[00:06:55.000 --> 00:06:57.000] 所以我要換多少  
[00:06:57.000 --> 00:07:01.000] 50 萬嗎  
[00:07:01.000 --> 00:07:03.000] 50 百  
[00:07:03.000 --> 00:07:05.000] 50 萬

[00:07:05.000 --> 00:07:07.000] 50 萬嗎

[00:07:07.000 --> 00:07:09.000] 五位數

[00:07:09.000 --> 00:07:21.000] 這邊

[00:07:21.000 --> 00:07:23.000] 你有什麼想法

[00:07:23.000 --> 00:07:27.000] 這是換的一支單位

[00:07:27.000 --> 00:07:29.000] 很多支來算

[00:07:29.000 --> 00:07:31.000] 就是

[00:07:31.000 --> 00:07:33.000] 然後你會有點搞不清楚

[00:07:33.000 --> 00:07:35.000] 說為什麼會有兩個

[00:07:35.000 --> 00:07:37.000] 因為他沒有寫清楚說

[00:07:37.000 --> 00:07:39.000] 這邊是函環或是這邊

[00:07:39.000 --> 00:07:41.000] 是函環

[00:07:41.000 --> 00:07:43.000] 以常識判斷知道說

[00:07:43.000 --> 00:07:45.000] 因為函環比值很小

[00:07:45.000 --> 00:07:47.000] 所以以常識判斷可以知道說這邊是函環

[00:07:47.000 --> 00:07:49.000] 但是我覺得

[00:07:49.000 --> 00:07:51.000] 說他是一個單位

[00:07:51.000 --> 00:07:53.000] 因為他就是用錢的符號

[00:07:53.000 --> 00:07:55.000] 他沒有說什麼 KRW

[00:07:55.000 --> 00:07:57.000] 或是 ADD

[00:07:57.000 --> 00:07:59.000] 要自己點出來

[00:07:59.000 --> 00:08:01.000] 才看得到結果

[00:08:01.000 --> 00:08:05.000] 但結果的呈現

[00:08:05.000 --> 00:08:07.000] 是清楚的

[00:08:07.000 --> 00:08:11.000] 這邊就隨便打一打

[00:08:11.000 --> 00:08:13.000] (笑)

[00:08:13.000 --> 00:08:15.000] (笑)

[00:08:17.000 --> 00:08:19.000] (笑)

[00:08:19.000 --> 00:08:21.000] (笑)

[00:08:21.000 --> 00:08:23.000] (笑)

[00:08:25.000 --> 00:08:27.000] (笑)

[00:08:29.000 --> 00:08:31.000] (笑)

[00:08:31.000 --> 00:08:33.000] (笑)

[00:08:33.000 --> 00:08:35.000] (笑)

[00:08:35.000 --> 00:08:37.000] (笑)

[00:08:37.000 --> 00:08:39.000] (笑)

[00:08:39.000 --> 00:08:41.000] (笑)

[00:08:41.000 --> 00:08:43.000] (笑)

[00:08:43.000 --> 00:08:45.000] (笑)

[00:08:45.000 --> 00:08:47.000] (笑)

[00:08:47.000 --> 00:08:49.000] (笑)

[00:08:49.000 --> 00:08:51.000] (笑)

[00:08:51.000 --> 00:08:53.000] (笑)

[00:08:53.000 --> 00:08:55.000] (笑)

[00:08:55.000 --> 00:08:57.000] (笑)

[00:08:57.000 --> 00:08:59.000] (笑)

[00:08:59.000 --> 00:09:01.000] (笑)

[00:09:01.000 --> 00:09:03.000] (笑)

[00:09:03.000 --> 00:09:05.000] (笑)

[00:09:05.000 --> 00:09:07.000] (笑)

[00:09:07.000 --> 00:09:09.000] (笑)

[00:09:09.000 --> 00:09:11.000] 外匯申報

[00:09:11.000 --> 00:09:13.000] 申報目的地區

[00:09:13.000 --> 00:09:17.000] 應該是韓國

[00:09:17.000 --> 00:09:19.000] 其實我不太確定說外匯申報的資訊

[00:09:19.000 --> 00:09:21.000] 資料

[00:09:21.000 --> 00:09:23.000] 他的用途

[00:09:23.000 --> 00:09:25.000] 都覺得可以

[00:09:25.000 --> 00:09:27.000] 用  
[00:09:27.000 --> 00:09:29.000] 有符號  
[00:09:29.000 --> 00:09:31.000] 把手錶放在這邊  
[00:09:31.000 --> 00:09:33.000] 他會跳出來  
[00:09:33.000 --> 00:09:35.000] 就是一個驚嘆號  
[00:09:35.000 --> 00:09:37.000] 那種東西  
[00:09:37.000 --> 00:09:41.000] 是觀光嗎  
[00:09:41.000 --> 00:09:43.000] 是吧  
[00:09:45.000 --> 00:09:47.000] (笑)  
[00:09:47.000 --> 00:09:55.000] 應該是  
[00:09:55.000 --> 00:09:57.000] 多期限存款  
[00:09:57.000 --> 00:09:59.000] 他會跳出一個  
[00:09:59.000 --> 00:10:01.000] 我看一下  
[00:10:01.000 --> 00:10:03.000] 跳出什麼  
[00:10:03.000 --> 00:10:07.000] 能用的金融機構  
[00:10:07.000 --> 00:10:09.000] 他有合作的金融機構  
[00:10:09.000 --> 00:10:11.000] 裡面有你  
[00:10:11.000 --> 00:10:13.000] 常用的嗎  
[00:10:13.000 --> 00:10:15.000] 有盒庫  
[00:10:15.000 --> 00:10:17.000] 沒有我最常用的  
[00:10:17.000 --> 00:10:23.000] 應該有  
[00:10:23.000 --> 00:10:25.000] 有郵局  
[00:10:25.000 --> 00:10:27.000] 沒有郵局  
[00:10:27.000 --> 00:10:29.000] 然後他沒有郵局  
[00:10:39.000 --> 00:10:41.000] 你看他這邊  
[00:10:41.000 --> 00:10:45.000] 這邊是想要確認什麼  
[00:10:45.000 --> 00:10:47.000] 很好奇他這邊寫什麼  
[00:10:47.000 --> 00:10:49.000] 這邊應該是  
[00:10:49.000 --> 00:10:51.000] 說他的營業時間

[00:10:51.000 --> 00:10:55.000] 營業時間應該沒問題  
[00:10:55.000 --> 00:10:57.000] 一般銀行都是下午三點  
[00:10:57.000 --> 00:10:59.000] (聽不懂)  
[00:10:59.000 --> 00:11:11.000] 出生日月日的合適錯  
[00:11:11.000 --> 00:11:15.000] 零四少一個零  
[00:11:15.000 --> 00:11:25.000] 那個啊  
[00:11:25.000 --> 00:11:27.000] 閒閒  
[00:11:27.000 --> 00:11:29.000] 很閒閒  
[00:11:29.000 --> 00:11:35.000] 不算大缺點  
[00:11:35.000 --> 00:11:39.000] 沒關係就到這裡  
[00:11:41.000 --> 00:11:43.000] 然後就是要等一下  
[00:11:43.000 --> 00:11:45.000] 他們要 suffice
